LIGHTING THE WAY TO BEAUTIFUL SKIN

The BEAUTY ANGEL RVT 30 emits light energy (non-UV) within the near infrared and visible wavelengths. It does not emit UV light and is not a tanning device. The light energy emitted is a gentle form of stimulation and is ideal for anybody looking for a natural, non-invasive way to help look and feel great. Working in conjunction with the action of the vibra-shape platform – and the application of vitamin enriched, aloe infused skin care formulations – the targeted light energy wavelengths enhance the overall effectiveness of the complete system.

The results easily surpass anything else in the industry. Clients can select from four (4) different programs, each offering varying levels of targeted muscle stimulation, exercise and massage intensity. Whether young or old, the Vibra-Shape programs can help anyone achieve their body toning and fitness goals.
